

Austin Central ITI Study Club, Dr. Christopher Bingham, Director

Closing Black Triangles with Composite

Learning Objectives

- Gain an understanding of the principles and techniques used to address cosmetic and restorative dental issues
- Acquire the skills necessary to effectively close black triangles, achieving natural and aesthetically pleasing results while preserving tooth structure
- Explore case studies to enhance clinical decision-making and learn how to integrate these insights into practice for improved patient outcomes

Course Description

Join Dr. Jarrett Hulse for an illuminating seminar on innovative techniques for addressing the challenge of closing black triangles in cosmetic and restorative dentistry. In this seminar, participants will delve into advanced methodologies aimed at achieving natural, beautiful smiles by effectively addressing black triangles and enhancing overall dental aesthetics.
