Team approach in the treatment of congenitally missing maxillary lateral incisors using the 10 Keys checklist

Learning Objectives

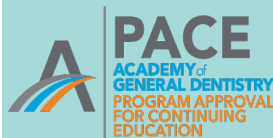

- Understand the various treatment options for replacement of the congenitally missing lateral incisor: space closure vs. space opening with prosthetic or single implant replacement
- Describe the benefits of a close working relationship between specialists with educating the patient of the proposed treatment options
- Recognize the importance the ITI's Esthetic Risk Profile (ITI Treatment Guide #10 & 14) with "virtual" CBCT implant planning in the decision process
- Understand the importance of the "Updated 10 Keys Checklist" and phenotype modification as part of the surgical protocol with use of autogenous soft tissue grafting or a new volume stable collagen matrix (VSCM) for a "palate-free approach" for the replacement of lost tissue
- Describe how Google® literally drives patients to our practices thru 5-star reviews as "We treat people, not patients."

Course Description

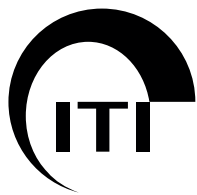

This presentation reviews the various treatment options in the interdisciplinary planning and treatment of the congenitally missing lateral incisor. The pros and cons of each treatment option with current literature will be discussed and related to cases treated by Dr. Levine. He will share his over 3-decade experience with the treatment planning as well as the timing of GBR when needed prior to implant placement. These mutually beneficial interdisciplinary relationships that have been developed and nurtured over his career with the International Team for Implantology (ITI) will be discussed. Being on the "same page" with all team members makes for a seamless patient experience for "the benefit of our patients" resulting in 5-Star Google® reviews.

Course Information

Speakers:	Dr. Robert A. Levine, DDS
Date:	May 1st, 2025
Time:	Registration: 6:00 p.m. Program: 6:30 p.m. to 8:30 p.m.
Location:	Union League Club 38 E 37th Street New York, NY 10016
Audience:	All
AGD Code:	690
Type:	Lecture
SAC:	Straightforward
CE Credit:	2.0 Hours
RSVP:	Please RSVP by 4/24/25 to Marisa at marisa@nycpros.com
Phone:	917-733-3271

ITI Foundation for the Promotion of Oral Implantology
Nationally Approved PACE Program Provider
for FAGD/MAGD credit.
Approval does not imply acceptance by any
regulatory authority or AGD endorsement.
1/1/2025 to 12/31/2027
Provider ID# 344991

Speakers

Dr. Robert A. Levine DDS

Dr. Robert A. Levine maintained a full-time private practice in Philadelphia at the Pennsylvania Center for Dental Implants and Periodontics for over 35 years. He graduated from Temple University School of Dentistry and received his post-graduate certificate in Periodontics from the University of Pennsylvania. Dr. Levine has post-graduate periodontology-implantology clinical teaching positions at Temple University, University of North Carolina, University of Illinois in Chicago, and the University of Pittsburgh.

Dr. Levine is a Diplomate of the American Board of Periodontology, President, and Fellow of the International Society of Periodontal Plastic Surgeons (FISPPS), and a Fellow, Diplomate, and a member of the Board of Directors of the Academy of Osseointegration (AO) and organizes and produced the 6 AO "Hot Seat" Live Podcasts series since 2023. He serves on the Editorial Boards or as a reviewer of numerous scientific journals and has authored over 100 scientific publications including six book chapters. Bob is a Fellow of the International Team for Implantology (ITI) and is the US ITI Section Chair (2024-2026) and has participated in the last 4 ITI Consensus conferences since 2008.

He spends much of his free time visiting, lecturing, and mentoring post-graduate residency programs in periodontology, implantology, prosthodontics and AEGD both nationally and internationally, giving in person seminars, web-based webinars, and hands-on courses on various topics from saving teeth to full arch dental implant tooth replacement.
