

International Team  
for Implantology

# North Atlanta ITI Study Club

## Rosemary Davis, Director

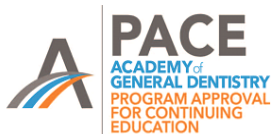

### Hard & Soft Tissue Augmentation for Implant Site Development

Participant will walk away with an understanding of:

- Assessing hard and soft tissue deficiencies prior to implant planning
- Treatment options for implant site development
- Case presentation of various cases our members have encountered
- Sequencing augmentation at implant sites

#### Course Description

Assessment of both hard and soft tissues prior to implant placement is paramount in both implant success and optimal esthetic outcome. This course will discuss how to assess and diagnose ridge deficiency and how to use these classifications in treatment selection and sequencing.

ITI Foundation for the Promotion of Oral Implantology  
Nationally Approved PACE Program  
Provider for FAGD/MAGD credit.  
Approval does not imply acceptance by  
any regulatory authority or AGD endorsement.  
1/1/2021 to 12/31/2024  
Provider ID# 344991

Phone:	518-744-2271

#### Dr. Rosemary Davis

Dr. Davis received her Doctor of Dental Medicine from Boston University Goldman School of Dental Medicine. She was inducted into Omicron Kappa Upsilon and was awarded the Quintessence Award for outstanding clinical achievement in periodontics. She then pursued a three-year specialty residency in Periodontics at the University of North Carolina at Chapel Hill. She received advanced training in periodontal disease, gum tissue grafting, cosmetic gum surgery, dental implants, IV sedation, and complex bone augmentation procedures. Dr. Davis also completed her Masters of Science in Dentistry at the University of North Carolina. She is a board certified in periodontics with the American Board of Periodontology and an active member of the American Academy of Periodontology, American Dental Association, and Georgia Dental Association.
