

WIN of Memphis ITI Study Club, Anna Compton & Beth Felton, Directors

Medical Considerations for the Implant Patient

Learning Objectives

- We will review how diabetes, smoking, bisphosphonate use, among other conditions impact the implant patient and the surgeon
- Discuss which patients are indicated and contraindicated for implant placement
- Review measures the dental team (assistants, front desk) can take to streamline the implant process

Course Description

In this lecture, we will review various frequently encountered medical conditions which impact implant planning, surgical protocols, and expected outcomes.

Speaker Biographies

Anna Claire Compton is a periodontist serving the Memphis area. She graduated from the University of Tennessee College of Dentistry in 2019, completed periodontal surgery/implantology residency in 2022 (also from UT), and has been in private practice for the past two years. She enjoys spending time with her husband and three sons when she is not treating patients.

Registration Policy

- Registrations are taken on a first come, first serve basis

ITI reserves the right to cancel courses that do not meet minimum enrollment. The course fee will be refunded, in full, within two weeks of cancelled course date. Attendance is not confirmed until attendee has received a letter of confirmation from the ITI Education Department.
