11:00	Abutment screw removal techniques	Colin Burns & Andrew Legg
12:30	Lunch	
13:30	Complications demonstrations on video and discussion part 1	Colin Burns & Andrew Legg
15:15	Coffee break	
15:30	Complications demonstrations on video and discussion part 2	Colin Burns & Andrew Legg
17:00	End of day 1	

ITI Education Week Lancashire

Dealing with implant complications

Day 2: Friday, October 20, 2023 – Lectures and discussions

Time	Topic	Speaker(s)
09:00	Alternative theory to plaque induced peri implantitis	Fadi Barrak
10:30	Coffee break	
11:00	Soft tissue augmentation techniques for dealing with complications e.g. where there is a lack of volume or keratinised mucosa: <ul style="list-style-type: none"> • Pre-implant placement • At implant exposure • Implant in situ 	Pedja Pavlovic
12:30	Lunch	
13:30	Soft tissue case-based discussions part 1	Fadi Barra and Pedja Pavlovic
15:15	Coffee break	
14:45	Soft tissue case-based discussions part 2	Fadi Barra and Pedja Pavlovic
17:00	End of day 2	
19:30	Course Dinner	

ITI Education Week Lancashire

Dealing with implant complications

Day 3: Saturday, October 21, 2023 – Hands-on skills practice

Time	Topic	Speaker(s)
09:00	Pigs heads soft tissue grafting exercises*	Flavio Pisani, Andrew Legg, Fadi Barrak
10:15	Coffee break	
10:30	Pigs heads soft tissue grafting exercises*	Flavio Pisani, Andrew Legg, Fadi Barrak
12:00	Lunch	
13:00	Pigs heads soft tissue grafting exercises*	Flavio Pisani, Andrew Legg, Fadi Barrak
14:30	Coffee break	
14:45	Pigs heads soft tissue grafting exercises*	Flavio Pisani, Andrew Legg, Fadi Barrak
17:30	End of the ITI Education Week	

* Grafting techniques for dealing with soft tissue complications in implant sites will be practiced using pigs jaws.

This will include the use of xenografts.

Complications procedures using models and placed implants, e.g. different methods of removing implants, fractured and damaged implants
