

# An opportunity to combine valuable, thought-provoking lectures with a visit to one of the 7 wonders of the world!

Jordan is home to Petra, one of the 7 wonders of the world, the Dead Sea – the lowest point on earth, and the Wadi Rum desert, famous for its sand dunes as well its impeccable film location pedigree (Lawrence of Arabia, Indiana Jones, Star Wars, The Martian as well as Dune 2021). With its crystal clear night skies, Wadi Rum also offers deluxe star gazing from the bubble room hotels inspired by the Martian movie.
